Vienna, 27 January 2025

“My son Klemens set the course for a strong future for STRABAG. Today the company is not only proving to be resilient in the face of the many market upheavals, it is also on the right path to staying fit for the future.

We, the owners, want to continue on this path just as much as the Management and Supervisory Board. The Management Board has asked me to support the company in continuing the transformation process, a task that I will pursue in coordination with my syndicate partners. I will also make my experience available to the new CEO, as I did for Klemens, as soon as the Supervisory Board has chosen a successor.

Our intention is, among other things, to show that the Haselsteiner family remains firmly committed to and inextricably linked with STRABAG,” says Dr. Hans Peter Haselsteiner, General Representative of STRABAG SE.

STRABAG SE is a European-based technology group for construction services, a leader in innovation and financial strength. Our activities span all areas of the construction industry and cover the entire construction value chain. We create added value for our clients by taking an end-to-end view of construction over the entire life cycle – from planning and design to construction, operation and facility management to redevelopment or demolition. In all of our work, we accept responsibility for people and the environment: We are shaping the future of construction and are making significant investments in our portfolio of more than 250 innovation and 400 sustainability projects. Through the hard work and dedication of our approximately 86,000 employees, we generate an annual output volume of around € 19 billion.

Our dense network of subsidiaries in various European countries and on other continents extends our area of operation far beyond the borders of Austria and Germany. Working together with strong partners, we are pursuing a clear goal: to design, build and operate construction projects in a way that protects the climate and conserves resources.
