

STRABAG completes acquisition of Romanian railway infrastructure specialist BAWI Construction

Bucharest/Vienna, 1 October 2026

- **Acquisition of 100% of BAWI Construction SRL successfully completed**
- **Strengthening STRABAG's railway construction activities in Romania**
- **240 employees and 60 million euros output volume in 2025**

STRABAG SE has successfully completed the acquisition of 100% of the shares in BAWI Construction SRL, a Bucharest-based company specialised in railway infrastructure services. The transaction was announced in July 2026, has now reached closing following the receipt of all required regulatory approvals.

The transaction further strengthens the Group's position in the South-East European railway infrastructure market and expands its expertise and value chain depth in railway construction. BAWI's range of services extends from construction and modernisation to specialised works and in-house component production.

■ ■ We are delighted to welcome the BAWI team to the STRABAG family. Their proven expertise, strong market position and commitment to quality make them an excellent fit for our railway construction business. Together, we are ideally positioned to seize the opportunities offered by the growing Romanian and broader South-East European railway infrastructure markets.

Péter Glöckler

Member of the Management Board of STRABAG SE, responsible for the South + East segment

The Romanian railway infrastructure market continues to benefit from substantial investment and European funding schemes, and STRABAG is well positioned to achieve sustained growth in the region.

*The Romanian railway construction specialist BAWI Construction is now part of the STRABAG Group.

About STRABAG SE

STRABAG SE is a European-based technology group for construction services, a leader in innovation and financial strength. Our activities span all areas of the construction industry and cover the entire construction value chain. We create added value for our clients by taking an end-to-end view of construction over the entire life cycle – from planning and design to construction, operation and facility management to redevelopment or demolition. In all of our work, we accept responsibility for people and the environment: We are shaping the future of construction and are making significant investments in our portfolio of more than 250 innovation and 400 sustainability projects. Through the hard work and dedication of our approximately 89,000 employees, we generate an annual output volume of around € 20 billion.

Our dense network of subsidiaries in various European countries and on other continents extends our area of operation far beyond the borders of Austria and Germany. We pursue a clear **sustainability strategy** designed to make planning, construction and operation fit for the future.
