

2026 EcoVadis Rating: STRABAG receives Gold Medal for its ESG commitment for first time

Vienna, 30 September 2026

- **Overall score significantly improved over previous year**
- **EcoVadis awards STRABAG with Gold Medal**

With an overall score of 87 out of 100, STRABAG has earned a Gold Medal in the latest EcoVadis Sustainability Ratings Index. The result places STRABAG among the top 5% of companies assessed by EcoVadis over the past 12 months.

In its ratings, EcoVadis evaluates sustainability criteria across four key themes: environment, labour and human rights, ethics and sustainable procurement. The assessment examines how well a company has integrated the principles of sustainability into its business and management systems. Thanks to the systematic optimisation of its internal processes and standards, STRABAG made progress in all four areas.

Key factors behind the significant improvement include STRABAG's short-term emissions reduction targets, which have been officially validated by the Science Based Targets initiative (SBTi). In the realm of social and governance, STRABAG continued to expand its various training programmes and stakeholder engagement formats and broadened its Environmental and Energy Policy to cover key topics such as water and biodiversity.

▀▀ STRABAG's first-ever EcoVadis Gold Medal underlines the progress we have made in terms of sustainability. Sustainability is firmly embedded in our corporate strategy and the significant improvement in our rating confirms the effectiveness of our measures. We are proud of this achievement and see the award as an incentive to continue along our current path.

Stefan Kratochwill
CEO of STRABAG SE

STRABAG actively participates in the ESG ratings conducted by CDP, ISS ESG and EcoVadis. Assessments by these rating agencies offer an objective evaluation of STRABAG's sustainability performance across environmental, social and governance dimensions and provide stakeholders with greater transparency regarding the Group's sustainability initiatives.

About STRABAG SE

STRABAG SE is a European-based technology group for construction services, a leader in innovation and financial strength. Our activities span all areas of the construction industry and cover the entire construction value chain. We create added value for our clients by taking an end-to-end view of construction over the entire life cycle – from planning and design to construction, operation and facility management to redevelopment or demolition. In all of our work, we accept responsibility for people and the environment: We are shaping the future of construction and are making significant investments in our portfolio of more than 250 innovation and 400 sustainability projects. Through the hard work and dedication of our approximately 89,000 employees, we generate an annual output volume of around € 20 billion.

Our dense network of subsidiaries in various European countries and on other continents extends our area of operation far beyond the borders of Austria and Germany. We pursue a clear **sustainability strategy** designed to make planning, construction and operation fit for the future.
