STRABAG SE expands Management Board: Christa Koenen appointed CIDO

Vienna, 15 September 2026

- **STRABAG SE Management Board to comprise six members from 1 January 2027**
- **Christa Koenen to take responsibility for the Group's IT and digitalisation activities**

The Supervisory Board of publicly listed construction group STRABAG today resolved to appoint Christa Koenen as the sixth member of the Management Board with effect from 1 January 2027. In her new position, Koenen will be responsible for the Group-wide IT agenda as well as for digitalisation and innovation. Previously, she was a member of the management board of Schenker AG, responsible for IT and digitalisation. Prior to that, she served as CIO of Deutsche Bahn AG.

▀▀ The pace of development in data-driven technologies is accelerating enormously. As STRABAG aspires to be technology leader in the construction industry, we need to focus on harnessing the potential that these new technologies hold for us. To support this objective, the Supervisory Board has decided to bring all IT and digitalisation activities together under a single Management Board portfolio. With Christa Koenen, we are deliberately strengthening this key area for the future through external expertise.

Kerstin Gelbmann

Chairwoman of the Supervisory Board of STRABAG SE

▀▀ I have supported extensive transformation processes in the past and know the potential that systematic digitalisation can unlock. The construction industry is now at a similar turning point. The opportunity to help one of Europe's largest construction groups digitally connect its decentralised, international service business, systematically drive innovation and position itself for the future is what makes this role especially appealing.

Christa Koenen

Designated Member of the Management Board of STRABAG SE

Further information on Christa Koenen can be found [here](#).

About STRABAG SE

STRABAG SE is a European-based technology group for construction services, a leader in innovation and financial strength. Our activities span all areas of the construction industry and cover the entire construction value chain. We create added value for our clients by taking an end-to-end view of construction over the entire life cycle – from planning and design to construction, operation and facility management to redevelopment or demolition. In all of our work, we accept responsibility for people and the environment: We are shaping the future of construction and are making significant investments in our portfolio of more than 250 innovation and 400 sustainability projects. Through the hard work and dedication of our approximately 89,000 employees, we generate an annual output volume of around € 20 billion.

Our dense network of subsidiaries in various European countries and on other continents extends our area of operation far beyond the borders of Austria and Germany. Working together with strong partners, we are pursuing a clear goal: to design, build and operate construction projects in a way that protects the climate and conserves resources.
