Successful acquisition in infrastructure expansion in southern Germany

Vienna, 8 May 2026

- **Successful closing of Stumpp acquisition**
- **Acquisition strengthens infrastructure construction and regional presence in southern Germany**

STRABAG has successfully completed the acquisition of Gebr. Stumpp GmbH & Co. KG, headquartered in Balingen. With this step, STRABAG is expanding its capacities in infrastructure construction and strengthening its presence in the region between Germany's Black Forest and Lake Constance.

The Stumpp Group now contributes its extensive expertise in road construction and civil engineering to STRABAG, covering a broad range of services from earthworks to sewer and pipeline construction. The acquisition also includes an asphalt mixing plant operated by Stumpp as well as holdings in gravel works, thereby creating an important basis for further growth for STRABAG in the region.

■ ■ With the successful closing of the acquisition of Stumpp, we are strategically strengthening our infrastructure expertise in Germany. We are very pleased to welcome our new colleagues to our team and look forward to jointly pushing ahead the expansion of infrastructure in southern Germany.

Jörg Rösler

Member of the Management Board responsible for the North + West segment of STRABAG SE

With immediate effect, the company and its 300 employees, with an annual revenue of around € 90 million, are now part of STRABAG AG, Cologne, and are thus assigned to the North + West segment of STRABAG SE.

The parties have agreed not to disclose details as to the purchase price.

About STRABAG SE

STRABAG SE is a European-based technology group for construction services, a leader in innovation and financial strength. Our activities span all areas of the construction industry and cover the entire construction value chain. We create added value for our clients by taking an end-to-end view of construction over the entire life cycle – from planning and design to construction, operation and facility management to redevelopment or demolition. In all of our work, we accept responsibility for people and the environment: We are shaping the future of construction and are making significant investments in our portfolio of more than 250 innovation and 400 sustainability projects. Through the hard work and dedication of our approximately 89,000 employees, we generate an annual output volume of around € 20 billion.

Our dense network of subsidiaries in various European countries and on other continents extends our area of operation far beyond the borders of Austria and Germany. Working together with strong partners, we are pursuing a clear goal: to design, build and operate construction projects in a way that protects the climate and conserves resources.
