- 4.5 km motorway section from Ungheni to Târgu Mureş including spur route
- Ungheni–Ogra section successfully completed in 2018
- Contract value: RON 192 million (approx. €40 million)

Vienna/Bucharest, 8 June 2020 The European-based construction company STRABAG has been commissioned to build another section of the A3 motorway in Romania. The order for the 4.5 km motorway section from Ungheni to Târgu Mureş also includes a 4.7 km long, four-lane spur route. Work is expected to start this July and is scheduled to last for 18 months. The RON 192 million contract (equivalent to around €40 million) was awarded to STRABAG by CNAIR, the Romanian motorway company.

“A follow-up order is always a positive sign that our work has been valued by the client. After handing over the 10.1 km section between Ungheni and Ogra in 2018, we are happy to continue working on this central traffic artery,” says Thomas Birtel, CEO of STRABAG SE.

STRABAG SE is a European-based technology group for construction services, a leader in innovation and financial strength. Our services span all areas of the construction industry and cover the entire construction value chain. We create added value for our clients by our specialised entities integrating the most diverse services and assuming responsibility for them. We bring together people, materials and machinery at the right place and at the right time in order to realise even complex construction projects – on schedule, of the highest quality and at the best price. The hard work and dedication of our more than 75,000 employees allow us to generate an annual output volume of around € 16 billion. At the same time, a dense network of numerous subsidiaries in many European countries and on other continents is helping to expand our area of operation far beyond the borders of Austria and Germany. More information is available at www.strabag.com.

STRABAG has been operating in **Romania** since 1991, where its approx. 1,500 employees help to generate an annual output volume of about € 225 million.
