- **30 km section to be modernised and extended with addition of second track**
- **3 stations along the line will also be upgraded**
- **Contract value: € 364 million (STRABAG share: 66 %)**

Vienna/Budapest, 22 June 2021 The publicly listed STRABAG SE Group has been awarded the contract to upgrade a 30 km section of railway in south-eastern Hungary via its Hungarian railway construction subsidiary STRABAG Rail Kft. The contract, which is worth a total of € 364 million, will be executed in a consortium with a Hungarian partner (STRABAG share: 66 %). With the official signing last week started the financing phase. It will be followed by a 33 month long construction phase.

“The dual-track upgrade of this section of railway from Békéscsaba station to the national border will help to modernise an important link along the Trans-European Network. This improves the connection between internal markets and the Black Sea ports,” says Thomas Birtel, CEO of STRABAG SE.

### **Everything from a single source: railway construction, building construction, road construction**

STRABAG is contributing the entire range of the group' services to this infrastructure project. In addition to the track construction work, the contract also includes the overhead lines, the safety and signalling systems, the modification of three stations, including park and ride facilities, as well as road construction and civil engineering works. The stations Kétegyháza and Lökösháza will also be adapted to be barrier-free.

*STRABAG SE is a European-based technology group for construction services, a leader in innovation and financial strength. Our services span all areas of the construction industry and cover the entire construction value chain. We create added value for our clients by our specialised entities integrating the most diverse services and assuming responsibility for them. We bring together people, materials and machinery at the right place and at the right time in order to realise even complex construction projects – on schedule, of the highest quality and at the best price. The hard work and dedication of our more than 75,000 employees allow us to generate an annual output volume of around € 16 billion. At the same time, a dense network of*

*numerous subsidiaries in many European countries and on other continents is helping to expand our area of operation far beyond the borders of Austria and Germany. More information is available at [www.strabag.com](http://www.strabag.com).*
