- **With Stefan Kratochwill, a senior manager with many years of experience takes over leadership of the Group**

Vienna, 19 February 2025, 12:17 p.m.

The Supervisory Board of STRABAG SE today appointed Stefan Kratochwill as CEO with immediate effect. Kratochwill (48) previously held the position of central division head and managing director of the Group's construction machinery subsidiary STRABAG BMTI GmbH with responsibility for 3,000 employees internationally.

***STRABAG SE** is a European-based technology group for construction services, a leader in innovation and financial strength. Our activities span all areas of the construction industry and cover the entire construction value chain. We create added value for our clients by taking an end-to-end view of construction over the entire life cycle – from planning and design to construction, operation and facility management to redevelopment or demolition. In all of our work, we accept responsibility for people and the environment: We are shaping the future of construction and are making significant investments in our portfolio of more than 250 innovation and 400 sustainability projects. Through the hard work and dedication of our approximately 86,000 employees, we generate an annual output volume of around € 19 billion.*

Our dense network of subsidiaries in various European countries and on other continents extends our area of operation far beyond the borders of Austria and Germany. Working together with strong partners, we are pursuing a clear goal: to design, build and operate construction projects in a way that protects the climate and conserves resources.
